Mr. Shaffer's latest step was that it was only a normal symptom of general trou-ble, which, in the natural order of things, will probably present a worse appearance before there is a permanent change for the better. Inasmuch as opinion is now

In the instance of Union Pacific, the begrigh continuent is apparently counting upon the effects of the disappointment on the part of the speculators at the absence of any change in the rate of dividend to be declared tomorrow, but it is not possible to ascertain upon what particular, theory St. Paul has been selected as the object of special attention on the part of operators for decline.

London was a particularly negligible factor in the market, both in respect of the quotations furnished from that quarter and the subrequent dealings here for foreign account. Sterling exchange continued very firm, but the possibilities of exportations of gold with the course of the week did not appear to cut much figure in the speculation.

Narrow and Irregular Fluctuations in the Day's Dealings.

Fairly Heavy Transactions in United States Steel—Sugar Refining Strong —Union Pacific and St. Paul Lend the Activity in the Railway List.

New York, Aug s.—Wall Street received with composure the news that President Shaffer, of the Amalgamated Association, had lested orders for a general strike of the members of the union. The stock market, in fact, continued extremely dull and prices showed the same have resulted from the dealings of the fast ten days.

Apparently the construction placed upon Mr. Shaffer's latest step was that it was only a normal symptom of general from The analysis of the situation most general may a normal symptom of general from The analysis of the situation most general may a normal symptom of general from The analysis of the situation most general may a normal symptom of general from The analysis of the situation most general may an attention to the day for the market of the preceding week, based on the theory that was much heavy short selling of the stret was much heavy short selling of the market of the preceding was much heavy short selling of the stret was much heavy short selling of the stred specially of the stret selling of the stred specially of the stred specially of the stred suprising streket and especially of the stred specially of the stred special stred specially of the stred specially of the stred specially of the stred special stred on the day following the streker soon would declare their strike during the first two days of the streker soon would declare their streke during the first week, not to mention that of the preceding week, based on the theory that the streker soon would declare their streke to tumble on the day

The analysis of the situation most generally heard among conservative people yesterday was that the Steel syndicate is supporting the market and intends to do so no matter what must happen in the strike. No other explanation of the persistent strength of the steel securities around to and to is available. It cannot be doubted that these securities would have knoken budly if the spedicate were not ready to buy all the spedicate were not ready to buy all the spedicate were the better. Inastanch as opinion is now fairly unanimous that there can be but one issue to the strike, each successive departure has come to be regarded as liftle more than a date mark punctualing the inevitable progress of the matter.

With the course of the day nothing definite was added to the general information relating to the status of the strike, but there seemed to be an impression aftent that there night be negotiations going on underneath the surface which would result in terminating the trouble. Confirmation of this notion was wanting, and it may be assumed at the last abortive conference with the executive board of the staticent the surface which will make it necessary for the corporation to recede from the position its representatives assumed at the last abortive conference with the executive board of the static the static to a certain executive in a most fortunate position to take care of the trust stocks this time. The belief that this situation exists has led a considerable number of investors to buy levels and this has lightened the further and the proferred to 2. The syndicate are found to preferred to 2. The syndicate and the preferred to 2. The syndicate are found to preferred to 2. The syndicate and the preferred to 2. The syndicate are found to the preferred to 2. The syndicate are found to 2.

resentatives assumed at the last abortive conference with the executive board of the Amalgamated Aspeciation.

There were fairly heavy transactions today in the United States Steel assume to the resultant fluctuations were limited. There were no very clear indications that the stocks were being supported in the sense that Wall Street employs this term, and the general dealings in them did not indicate that any artificial supported was necessary.

Sugar Reining furnished the only other considerable activity in the industrial quarter, and continued strong, reports current that there would be an early change in the management of the specialities. The railway list where small and irregular changes in prices appeared. The Nickel Plate issues were firm, and there was a further remarkable advance in St. Lawrence and Advisondack. Union Pacitic and St. Paul were again the leaders of the railway list in respect to activity, and underwent fluctuations of the same unsertain character that have marked the dealings it these stocks for the lass week. A very considerable short interest has been created in both issues.

In the instance of Union Pacific, the bearish contingent in apparently counting.

There has been a glored to every cataly by the first probably be from the part cern to a fallifure was a further remarkable advance in St. Lawrence and Advisondack. Union Pacific and St. Paul were again the leaders of the railway list in respect to activity, and underwent fluctuations of the same unsertain character that have marked the dealings in these stocks for the lass week. A very considerable short interest has been created in both issues.

In the instance of Union Pacific, the bearish contingent in apparently counting.

The railways have no reason to fear a large proper to the dealing and the core of the world be even greater than those of core crops to have been entirely without foundation. So much for the corn, crops. The wheat crop will be a heavy one, and, in fact, nearly all crops, except corn, will be good.

The railways have no reason to fear a lean year in the West. In nearly every instance the officials of the gramper lines are coming out with hopeful interviews, saying that the outlook is excellent for this year. President Ripley, of the Atchison, takes a particularly ross; view of the situation. He says that the gross earnings of his system will be fully as large as they were last year, in all probability, if not larger. Net carnings, he suggests, may be even letter, as the heavy betterment work on the system has been done in the past few years, and a low rate of expenditure will be sufficient from now on. He estimates a rate of 1800 a mile for the entire system, per annum, the larger part to be expended on the main line. It might be noted in passing, by the way, that the Atchison and Rock Island will benefit greatly in the next few years from the opening of the new Indian Territory lands to settlement. Each of these lines has drawn a big volume of business from Oklahoma.

The St. Paul system has nothing to fear from the crop outlook as far as one can see. Of the \$3.2\text{imiles} of the system, much the larger part runs through Wisconsin. South Dakota, Minnesota, and Iowa. Only one of these States is a corn State. Four are wheat States. As a matter of fact the corn tonnage of the St. Paul is only 5 per cent of its total freight, while its wheat tonnage is 10 per cent, thick is the most extreme estimate yet made, the St. Paul will only lose 21\(\text{i}\) per cent of its freight in corn. It will had considerably more than an average tonnage of wheat. The Rock Island is not so well situated with reference to the two crops. Its chief mileage is in Iowa, Kansas, Missouri, Oklahoma, and Colorado, The St. Paul system has nothing to fear erope. Its chief mileage is in Iowa, Kansas, Missouri, Oklahorna, and Colorado, and all of these States are corn States. The Rock leiand wheat tomage is 75 per cent of its total freight, and its corn tomage 19 1-2 per cent, or 797,558 bushels last year.

The Missouri Pacific has given forms notice to its stockholders that the stockholders that the stock has been increased to \$15,000,000 by the increase of \$15,000,000 has month. It is interesting to note that with the stock selling considerably below par the "rights to subscribe to this new stock, which were grabbed for cagerty at 8 at on time, are now worth about 2 "minus. The Missouri Pacific stock is not a ver dangerous proposition at its present leve dangerous proposition at its present leve however, according to some of the rai way experts. The earnings of the conpany continue to increase in a handsome way and the dividend seems entirely as-sured for some time to come.

Sugar was strong yesterday. The re-orts that Mr. Havemeyer is retiring from he trust are dealed emphatically. Indeed t was said yesterday that he was one of

The People's Gas Company made the best showing in its history during the liseal year just ended. The company is carning something like 10 per cent. The stock is talked of as a good purchase by some Chicago people who have often been on the right side of it.

The Union Pacific people meet today to declare the dividend on the common stock. There seems to be no doubt as to the rate being 3 per cent. The stock was strong yesterday afternoon, jumping up to above

Mr. J. J. Hill is one of the people who are talking very hopefully of the Western crop situation. He says every crop is good except corn and predicts that the net earnings of the Northern Pacific for July will show an increase of \$60.00.

A total of nearly forty rallways that have reported gross earnings for the fourth week of July show an increase of from 20 to 25 per cent.

The New York Curb Market. NEW YORK, Aug. 7.—The volume of susiness in the market for earb securities today was the smallest the brokers have seen since last summer. Prices generally moved downward. First Nationa Bank attracted considerable attention by Bank attracted considerable attention by advancing 50 points in the bid price to 50. American Can preferred was only dealt in to the extent of 100 shares at 72, a loss of 1 per cent over night. An odd lot of the common was taken at 225. Consoli-dated Tomacco 4a was firm at 555. New York Transportation was weak, selling off 5 per cent to 165, Hay State Gas, 5,00 shares, changed hands at 5, and L. Celumbus Gas Lightling and Hest. and I. Cotumbus Gas Lighting and Heat-ing, 30 shares, sold at 56. Cornden Land at 18. Himbrella, 25. The Corper stocks were neglected. Union sold at 5. Tennessee, 50 shares, sold at 18. Apache brought 655 and 455.

THE CHICAGO GRAIN MARKET. Corn Bears Insuccessful in Their Raid at the Opening.

CHICAGO, Aug. 7.-Wheat was strong. There was a slight easiness at the open ing, but the market quickly recovered and advanced Pic under good local professional and commission house buying. The sharp advance in St. Lawrence and Adirondack continued yesterday. The action of the directors on Thesday in declaring a dividend of 2½ per cent was a surprise and a pleasant one, though the dividend was not a semi-annual as was at first said. Another story which had the effect of making the stock an intersection of the control well leave the line at a Local corn bears made an effort to Local corn bears made an effort to break corn at the opening, but were unway below par a month ago. The insiders are said to have had at that time not only all the stock of the company, but about 00 shares sold to them short.

Successful. Corn did not come out, so they turned buyers, and advanced prices a cent. The forecast of frost for the Northwest contracts. Northwest gave them some uneasiness, Late in the day there were still further

Late in the day there were still further improvement and good commission house buying, which absorbed all offerings. There was a slight easiness at the close on profit taking sales. Cash sales were 125,690 bushels. There was no export business done. Receipts were only 80 cars, with 90 estimated.

Oats were dull and firm in sympathy with corn and wheat. Trade was light and confined to local scalping. The week-ing 12 cents per bushels under corn, which is a great difference. Receipts were 220 cars with 249 estimated for tomorrow. Provisions showed a further decline on realizing by September and October longs and the free offerings of January deliveries from packets. The market closed casy at about inside prices. The liberal hog movement and the rather slow cash trade were bearish factors.

BALTIMORE PRICE CURRENT. Wholesale Provision and Grain

Market Quotations in Full. BALTIMORE, Aug. 7.-Following are the quotations in today's local wholesale

market somewhat recovered. Receipts were more liberal, but there was a good demand at the decline and all offerings readily sold. Early sales on grade were reported at 73%c for No. 2 red, 69%c for steamer No. 2 red, and 66%c for rejected. Subsequent sales were made at 32 c for No. 2 red, 69 c for steamer No. 2 red, and 667ac for rejected. Sample lots sold at 65c 67c, 68c, 69c, 70c, 72c, and 73c, as to quality

Western wheat opened easier; August, 7317734c. Foreign markets were all reported lower in price, while speculative on this side were strong and higher, the bullish sentiment still in control. August was 73% 73% early, and September, 73% arrapid advance to 744744c for August, September being 7449744c, with sales of the former at these prices. August wheat continues in excellent demand, the sales today bein excellent demand, the scales today being closer to New York September than any yet made. Private cables, while steady, still not much was put through. Market closed firm. Spot, 74% bid; September, 74% bid; October, 54% bid; October ing closer to New York September than

PHILADELPHIA, Aug. 7.—Connie Mack's team of ball tosers and Manning's Senators gave a continuous performance at Columbia Park today in the shape of two games for one admission, and just to show the 5,6% people present that they were on the best of terms, sollt even on the day. The first game was a pitcher's battle between Winfred Mercer and "Strawberry Bill" Berghard, and the latter simply raced away with his brother siab artist in every department of the game. Bernhard has of late been easy for opposing teams, but today he handed up an assortment of shoots and henders that made the Senators look like the pro-

that made the Schators look like the pro-verbial thirty conts.

In one inning only did the visitors bunch enough safe ones to get a man across the plate, and that was in the initial trial, when Farrell rapped out a two-bagger and tallied the only run on Dungan's hard single to centre. From then on the Sen-ators' hits were as scarce as hen's teeth, and not a single visitor had a look in for the plate.

While this was going on, the locals were finding Mercer's curves just as difficult until the sixth inning, when Mack's boys used their buts to great advantage, Davis, the first man up, walked, and Cross sent a line drive to right, which Dungan gathered in and doubled up Davis, before he could get back to first base. Lajoie then rapped out a two-bagger and tallied with Seybold on the latter's drive over the

left field fence for a home run.

Singles by Fultz and Powers, and Davis two-bagger, netted the locals another run in the seventh inning, and three singles, a stolen base, and Grady's wild throw, chalked up the fourth and last run in the eighth. The score:

The Umpire Has a Lively Experience With Milwaukee Players.

CLEVELAND, Ohio, Aug. 7.-Cleveland signed Bracken, a local amateur pitcher, today. He pitched his first professional game and batted in the winning runs with a two-bagger in the ninth. Umpire Mannassau had a lively experience at the close of the game, the Milwaukee players making a run for him because he would not call Bracken's hit in the ninth a foul. Duffy, Friel, and Conroy struck

Struck out-By Philips, 2. Attendance,
50. Time of game, 1 hour and 45 minutes.
Umpire-Nash.

DOHENY'S PITCHING WON.

The Released Pirate Twirler Tosses

PITTSEURG, Aug. 7.—Doheny pitched for Pittsburg today and won after getting his notice of release. Two of the runs scored against him were the result of Leach's bad throw and the other was made on a questionable decision at first base. Catcher Yeager, who was signed today as an understudy for the injured Zimmer, made the sixteenth player on the rolls, and Doheny had to go. St. Louis played poorly and was beaten from the start. The score:

Pittsmung. Bark, If. Scaument, ef., bavis, rf., Ritchey, 2b eager, c... Joheny, p. Wotabs. 9 27 14 ST. LOUIS. Burkett, If... Padden, Ib. Heidrick, cf. PO. 'owell, p...... Schriver *Batted for Powell in ninth.

SHRINERS BEAT LAWYERS.

Former Amateurs Still Show Knowledge of Baseball.

Sweet charity was the excuse given by nine distinguished citizens, members of Almas Temple, Knights of the Mystic Shrine, and a similar number of talented members of the District bar to cavort around the diamond of the American League ball park yesterday afternoon, while some \$30 spectators found much to amuse them in the efforts of the players to prove that, being once was-ers, they still retain some of their former elever-ness in the line of baseball.

It wasn't much of a ball game, when considered from the standpoint of the out-and-out fan, bu, to those onlookers who were present for the fun of the thing, was simply great, and nobody cared because the umpire didn't dare to assert his authority and call the game on account of darkness until nearly 7:30 o'clock, when, had the game been continued for another inning, it would have been neces-sary to provide are lights to enable the fielders to get a line on the ball. The players themselves were having entirely too good a time to take any note of the flight of daylight, and not even the thought of late supper and the weak excuses that loomed up before the married contingent were enough to bring forth the suggestion "that after all, the boys might be a little lame from chasing around so much, and besides isn't it get-ting a little late?" The man that would have breathed a word about stopping the contest would have been ignominiously turned down and some of the two dozen or more anxious substitutes would have been given a chance to display their abilities as ball tossers of a decade ago. Some of the legal lights were undoubtedly crackajacks when they were in their prime, especially Mr. Eugene Carusi,

who was affectionately dubbed "Cupid" by one of his admiring friends. The day was when he was classed among the best of the local amateurs, and even in his work vesterday he showed a familiarity with the hang of the thing that was really surprising, especially when one has been so industriously engaged during the last dozen years in acquiring a formidable supply of embonpoint and a deep un-derstanding of the law of the land instead of keeping in training and continuing to be regarded in the light of an especially good amateur ball handler. Gouldsboro player who, in the days when he was on important member he was an important member of the Princeton stonewall infield, was regarded as one of the stars of the college world. It should be remarked that Pitcher Thylor, of the Lawyers, put up a rattling good game, and has the distinction of sending eleven of his opponents to the grass. In the third inning, in particular, he was under full steam, and retired the side on strikes—not a bad achievement by any means. Bernard, who did pitching stunts for the Jolly Fat Men in their Fourth of July game with the Elks, officiated for the Shriners. He was not much of a pumie to his legal opponents, but he had the assistance of a dozen errors on the part of the Lawyers, and it was solely on account of these misplays that he emerged from the field with the smile of victory on his face.

Mr. Hector Clemes, who had charge of the finances of the affair, announced that there were \$22 paid admissions, but a count revealed the fact that there were \$23 persons within the enclosure. Mr. Clemes accounts for the apparent discrepancy by averring that two small boys were admitted to the conflict for a dime, two nickels, and five pennies. The score:

ALMAS FEMPLE.

R. H. Po. A. E. Harnes, 23. Princeton stonewall infield, was regarded

Paker, 1b. Valker, cf .. H. PO. A. E. 1 2 1 6 LAWYERS.

TWO GAMES TOMORROW.

The Senators and the Philadelphias Will Play a Double Header.

Manager Manning has determined to etay in Philadelphia a day longer than the schedule provides, and will today play two games with Counte Mack's Athetics, thus pestponing the opening of the home series until tomorrow.

home series until tomorrow.

The Philadelphiaz and the Senators will journey to the Capital tomorrow morning, and at the American League Farx, at 2.30 o'clock in the afternoon they will present bargain baseball, the first the local fans have had for some time. There will be two games for one admission. It is expected that Lee and Carrick will do the pitching for the Senators, while Plank and Fraser will perform in a similar capacity for the Athletics.

MALARIA CAUSES BILIOUSNESS.
